

1、

You already get the raw data file, which includes raw data, data annotation and help document.

2、

Sample annotation provides the relevant annotations of experiment raw data. For example, “Sample over design” introduces the structure of experiment data and “Description” introduces the analyzed matter in experiment data.

# * Required fields									
Sample over design* Herein we analyzed the glycosylation of cervicovaginal lav									
Your E-mail* lkmahal@nyu.edu
